FOR THE COMMISSIONER OF PAT. & T.M.

REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR 1.323

To the Commissioner of Patents and Trademarks:

I respectfully request that a Certificate of Correction under the seal of the Patent and Trademark Office be issued which corrects the errors specified on the attached form. The correction is necessary because of the lack of full definition of terms in the two involved claims.

The error was made by the applicant. The statutory fee (\$40.00) should be charged to Deposit Account No. 19-2570 per the enclosed order.

The omission of "n" from the generic claims was an apparent drafting error since the claims issued as filed. The "n" definition is present at the disclosure of the generic group at columns 1-2 of the specification. The oversight was not detected in the review of the application, prior to filing, by at least three people. Nor was it detected in the examination procedure. The undersigned agent discovered the omission during work on certain foreign counterpart applications after the Issue Fee had been paid.

The requested correction does not change the scope of the two claims, certainly does not expand the coverage.

No new examination is necessary. The error is also not intentional. The requested correction is being requested at the first opportunity after discovery of the error.

Therefore, the request is believed proper under
In re Shirouchi et al., 204 USPQ 511 (PTO Solicitor 1978).

Issue of the Certificate of Correction is requested.

Respectfully submitted,

William H. Edgerton
Agent for Applicant
